RC Rob Candelino

RC Surf is doing tremendously well. We're having a fantastic year. It's our second successive year of fantastic growth. A couple of years ago the brand was in turmoil. When I started on the business, along with a number of us, and we built the global team a couple of years ago, we've re-engineered our regional teams, recalibrated, put right people in big jobs, and since then the brand has really turned around. So it's a remarkable turnaround story.
